ABOUT ME

Aspiring Full Stack Developer with expertise in designing and building responsive, scalable web applications using the MERN stack. Skilled in backend architecture, RESTful API development, and database management. Currently expanding frontend proficiency—specifically in React and Next.js—to deliver seamless end-to-end user experiences and intelligent agentic workflows. *(Full Stack Developer | Backend developer)*

EDUCATION

BCA (Pursuing): *Sahyog College of IT and Management* (KKSU University).
Secondary / Higher Secondary Education: *Gyanodaya Vidya Mandir.*

ROLE

- Full Stack Developer
- Backend Developer
- Frontend Developer
- MERN Stack Developer
- AI Workflow Developer

PROJECTS

Sensei Ultra | Adaptive Campus Automation Platform

- Architected a comprehensive educational platform and Flutter app utilizing the MERN stack, Next.js, and real-time Socket.io integration.
- Deployed a centralized tracking system to monitor student drop-out rates, evaluate faculty performance, and deliver targeted academic interventions.
- Utilized LangGraph.js and generative AI to power intelligent student ecosystems, featuring automated study generation and "Quizo" adaptive testing.

Edu-Ultra | *AI Learning Hub*

- Developed an AI-powered learning platform integrating Gemini API for automated study plans and learning paths.
- Built a YouTube-based Video Summarizer generating summaries, flashcards, and quizzes.
- Implemented AI features like debate simulations and intelligent doubt-solving bots using LangGraph.js

Trivo | *AI Reforestation Platform*

- Designed an AI-driven environmental platform for plant prediction and care alerts.
 - Integrated OpenWeather API with Gemini and Groq for climate-based plant recommendations.
 - Built intelligent workflows to generate actionable insights for sustainable reforestation.
-

SKILLS / LANGUAGES

- **Languages:** JavaScript (ES6+), C, C++, R Language, HTML5, CSS3.
 - **Backend:** Node.js, Express.js, LangGraph.js, AI Agentic Workflows.
 - **Frontend :** React.js and Next.js; proficient in Tailwind CSS.
 - **Database/Cloud:** MongoDB, Firebase, Google Authentication.
 - **AI/ML:** Gemini AI API, Groq API, LLM Integration for real-time feedback.
 - **App(learning):** Flutter, Dart, Android studio
 - **Soft Skills:** Communication, Leadership, Problem Solving.
-

AWARDS AND ACTIVITIES

- 2nd Prize: Invento Competition (*Sahyog College*).
- Active Participant: Tech Hackathons and Open Source contributions.
